2015 Membership Validation Procedures

Lists from the LDS Church database,
signed by the unit leader and an
appropriate LDS ecclesiastical leader,
can be used to register LDS youth in
LDS units.

3. LDS registration procedures

Effective January 1, 2014, the Church of Jesus Christ of Latter-day Saints (LDS) will be making direct payment to the National Council for the registration of the adults and members of their chartered units nationwide. Councils will process registrations normally and will continue to collect fees for any Boys' Life magazine subscriptions from the youth and adults in these units, but no registration LDS ecclesiastical lists from the LDS Church database, signed by the unit leader and an appropriate LDS ecclesiastical leader (stake president, stake Young Men's president, bishop, or counselor of the bishopric), can be used to register LDS youth in LDS units. By conveying the names and information of LDS Church youth to the BSA for registration, the Church represents that: the parent or guardian of each youth is aware of and agrees to their child's membership in the BSA; the youth subscribes to the oath or promise of the program they're joining; the parent or guardian agrees to support the child's participation; the parent or guardian understands that the chartered organization is to provide a safe and adequate meeting place and capable adult leadership; and all those involved in the unit's operation must adhere to the policies of the BSA.

8.3

Rechartering

Rechartering is the annual process by which each Scouting unit renews its charter as an official part of the BSA. As part of rechartering, each ward sends the BSA local council an updated roster of the Scouting unit, including the names, birth dates, and contact information of the registered youth in the unit. The roster lists all young men ages 8 through 15. Young men ages 16 and 17 are listed only if they are pursuing rank advancements or if the ward sponsors a Venturing crew. The roster must be signed by a member of the bishopric.

Parental Signature Exception Form

This form must be completed, including the required signatures, and kept in the unit file each time the parental signature exception is applied.
