

Wood Badge Work Day At PV

Good morning everyone! We have a great opportunity to provide service at Peaceful Valley Scout Camp on May 10th! As part of that service we'll be able to develop an area strictly for the use of Wood Badge. We'll also have specific a specific area to store Wood Badge Paraphernalia. Which I'm sure that the Quarter Masters will love.

Here are the details. The Work Day is scheduled for Saturday, the 10th of May. We need to start at 8am. So please plan your arrival for about 7:45am. Earlier than that and we won't be ready for you. So you eager Beavers and all other critters don't need to be there at 6am! The work will still be there at 8am.

We need you to bring gloves, masks, drills, hammers, shovels, rakes, in other words, bring your tool kit; you may need something in it. Better to be prepared and have it, than to not have it and wish you had something. We'd also suggest that you dress appropriately with long pants and probably long sleeves as well as hats and sun screen! And bring your water bottles!

We will meet at the old shooting range. Turn left into the 2nd entrance for PV as if you were going to the Dining Hall. Then take the first right to the shooting range. Council will provide us with lunch and dinner. So that they have a count, please go <http://www.bsacoloradoadventure.org/event/2014-ranch-hands-weekend/1514016> and register. Also, would you please send me an email with your name and if you have any special skills – such as being a carpenter to mount some shelves, etc. This will help us as we develop assignments for that day.

This is a one day event, so we will not be able to go down on Friday night.

Thank you all and we look forward to seeing you there! Please let me know if you have any questions.
